# CONCEPT

The Nigerian Investment Promotion Commission (NIPC), with a core mandate to encourage, promote and co-ordinate investments in Nigeria is pleased to host the "Direct Investors' Summit, Nigeria 2018", in Abuja in partnership with the National Bureau of Statistics (NBS), the custodian of official statistics in the country.

The Summit is aimed at attracting long term investments into Agriculture, Transport, Power, Gas, Manufacturing, Processing and Information & Communication Technology (ICT).

The Direct Investors' Summit, Nigeria 2018 will bring together policy makers, domestic and foreign direct investors and Nigerian investment opportunities, to a single location in Abuja over 2 days. It will offer a platform for discussing investment needs and goals without the need for investors to travel to various locations in Nigeria to see projects or for Nigerian companies seeking investments to travel to multiple countries to pitch to investors.

Summit participants will network, get access to relevant data required to make an informed investment decision and discuss pre-profiled investment ready projects from across Nigeria.
