

INFORMATION ABOUT ISE 2007 COMPANIES

1-) Revolabs Inc.

Revolabs Solo™ Wireless Conference Microphone System

Revolabs develops and manufactures revolutionary wireless conference solutions that allow for natural interaction and wireless mobility in the conference room during conference calls.

The Solo Executive and Solo Desktop System optimize voice audio quality and an innovative wireless form factor for conferencing, distance learning, public speaking or other professional collaborative applications. They allow crystal-clear voice, ability to freely move around the room, and more.

Founded in 2005, Revolabs, Inc. was formed by two of the leading wireless product executives, Marty Bodley and JP Carney, to provide solutions to a number of problems that have plagued the enterprise collaboration industry to date.

- ❖ Company has investments and activities on Education and Programming about Presentations and Home theater systems

3-) Audio-Control Inc.

AudioControl designs and manufactures only the best audio, video and measurement equipment at our factories located in the rainforests of the Pacific Northwest. Over the past three decades, we have poured all our knowledge, experience, and passion into each and every product we make. We consider perfection a reasonable goal and hope you enjoy our results as much as we enjoyed building them.

AudioControl now sells products in three major markets (car, home and professional) in twenty-six countries. Major international markets included: Canada, Mexico, Germany, Malaysia, United Kingdom, Benelux, Indonesia, Thailand, Japan, Austria, Philippines, Australia and Singapore.

Perfection Theater Products

For nearly 30 years AudioControl has been designing and manufacturing measurement and correction products for professional and home listening environments, making perfect acoustic reproduction a possibility. To that extent, the AudioControl PerfectionTheater components are perfectly matched to render the most advanced surround sound formats at a level of realism far surpassing that in any commercial cinema.

10-)ICM Corporation

ICM is a Value Added Integrator of field and sales force automation solutions with a twenty-year track record of delivering Return On Investment for our clients. With over 500,000 handheld and notebook computers placed with the nation's leading organizations, ICM has become a valuable business problem-solver and can be depended upon to untangle complex fleet deployments issues

to deliver the best mobile products and service at the most reasonable cost.

Experience

Since ICM's inception in 1985, the company has delivered robust mobile computing solutions for clients in the Insurance, Utility, Law Enforcement, Healthcare, and Aviation industries. ICM has maintained status as the #1 value added reseller for Panasonic Toughbooks for the past seven years. ICM's certified repair technicians are authorized to perform warranty repair work for Panasonic, Fujitsu and Lenovo laptops.

ICM have the knowledge and experience to deliver large and complex deployments, smoothly and on schedule. For example, ICM sourced, configured, tested and executed the deployment of over 32,000 wireless laptops for SBC Communications' Tech of the Future project. This deployment was delivered on schedule without a single defect reaching the field.
