UNIONCAMERE
MEMBER

Dear reader,

In order to involve you in a careful consultation of this chronicle, I want to provide you with a kind of short reading guide, by showing the primary purposes and the feasible opportunities that have pushed the C.C.I.O. to publish a special edition of its periodical, inside a wide ranging marketing project.

The objective that has always marked us is to spread and to promote, professionally and with competence, the knowledge of “Made in Italy”, that we have tenaciously pursued and also reached remarkable and estimated results.

The term of “Made in Italy”, that includes not only Italian products with their unique characteristics of innovation and quality, but also its territory with its beautiful landscapes, its history and its excellent products, which echo is heard all over the world.

Italian products and Italian territory, that are two cardinal points and two levels connected with each other, where our members, already grown in number, make up the crucial point.

There are companies that developed several fields of products and services, from different parts of Italy, where you can find a complete and exhaustive list that you could contact according to your specific interests to develop opportunities of investment and affairs.

To complete the framework that we have shown to you, besides of informative notes indicated before, a short summary of our recent activities and than to realise and a country schedule about Italy with economic notes and basic informations.

RECENT CHAMBER’S ACTIVITIES

- Meetings Hong Kong turning China into opportunity.
Hungary: partner of a successfull cooperation.
Tools and strategies to operate into Turkey’s market.
With Ambassador and Economic Counsellor of Ucraina Embassy.

NEXT PLANS

- Course about pratical international trade issue.
- Meeting Serbia: opportunity for a good cooperation
- Federico II project (for a fair). Dream empire: from Federico II to the third millennium.

Comm. Silvio PANARO
President of C.C.I.O.

Country schedule

Geography: A peninsula in Southern Europe extending into the central Mediterranean Sea, including the islands of Sicily, Sardinia, Elba and about 70 other smaller islands. It is mostly mountainous, though between the Apennines (which form the spine of Italy) and the eastern coastline there are the fertile plains of Emilia-Romagna in the north and of Puglia in the south. The Alps in the north divide Italy from France, Switzerland, Austria and Slovenia. The climate is predominantly Mediterranean in the south and Alpine in the north.

Transportation: Railways: total: 19,319 km (2004). **Highways:** total: 479,688 km; paved: 479,688 km (including 6,621 km of expressways). **Waterways:** 2,400 km; note: used for commercial traffic; of limited overall value compared to road and rail (2004). **Airports:** 134 (2004 est.).

Economy: Italy is the world's eighth largest industrial economy. It has few natural resources, the most important being natural gas reserves - in the Po valley and offshore in the Adriatic Sea - and some oil deposits. Most raw materials needed for manufacturing and more than 80% of the country's energy are imported. Italy's economic strength is in the processing and manufacturing of goods, primarily in small and medium sized family-owned firms. Its major industries are tourism, precision machinery, motor vehicles, chemicals, pharmaceuticals, electrical goods, textiles, fashion, clothing and footwear.

In the framework of the last Assembly of the "Camera di Commercio Italo Orientale", the President Silvio Panaro has reported on the positive results achieved in 2006, also due to the collaboration with the Commerce Chamber of Bari.

Therefore, they have proceeded to a programme for the coming year, according to the previous experience:

"Camera di Commercio Italo Orientale" will proceed with the informative activity, by giving primary importance to the companies that export or that want to make their first steps overseas, through the chamber bulletin of the periodic, thematic mails throughout our web-site: www.ccio.it

The promotional activities will be conducted, with the partners of an undoubted professionalism, as during the previous year, in collaboration with the proposed Agencies involved in the internationalisation, and they will also be revolved in a national and international framework.

This Chamber will take part at various fairs and manifestations, such as: La Fiera Campionaria Internazionale del Levante (Bari), an unforgettable meeting due to the importance of this fair.

Considered in an international ambit, "Camera di Commercio Italo Orientale" will organise country presentations in Italy, and will also organise round tables and other aimed meetings, with different entrepreneurs in the following areas, focusing of the geographically most important countries.

- In the attribute of the local partners of the Province of Lecce, an international seminar was held. What follows now is the activity on the "Internationalisation and Innovation" in the framework of the "Innovint" project, the community enterprise Interreg III C West.
- In cooperation with the Regional office "Sprint Puglia" at least two Country presentations: Bulgaria e Romania.
- A round table on the commercial opportunities and investments in Albania
- A seminar on Chorea and Japan, a confrontation of the two economies.
- A seminar about Taiwan in Puglia, in corporation with Taitra and the representation of Taiwan in Italy.
- We expect further activities in corporation with the Indo-Italian Commerce Chamber of Mumbay for the Indian territory.
- With the Commerce Chambers of Instambul, Izmir and the Egean area, country representation on Turkey with the following entrepreneurs delegation.
- Macedonia, a meeting with the companies, as a result of the agreements of the existing cooperation agreements.
- Seminars on Hong-Kong in corporation with "Italia-Hong-Kong" and "HK TDC" Associations.

- Hungary in collaboration with the partner "ITD Hu", as in the past for more regions and country presentations during the second semester 2007.
- Economic missions: we expect to organise single missions for the interested entrepreneurs in the Balkans area and also in the extreme orient.
- During the fair "Fiera del Levante" in September, some referents, deputies as well as foreign buyers from overseas will be present.
- As far as the direct training is concerned, the Chamber will provide informative modules containing the following issues:
 - 1 – The international strategies for PMI
 - 2 – The delivery conditions of the international commerce: the Incoterms 2000
 - 3 – The Export Credit Risk Management: how to receive payments without risks: with particular reference to the credit letter (that will be changed on the 1st July 2007)
 - 4 – The operations between the European Union Countries and the Intrastat forms.

The Project FEDERICO II : The Federician Mediterranean Fair

The ambitious project, that is expected to give its first results in December 2007, has been approved by the Research University of Bari, by the Research Centre "Normanno Svevi", by the Commerce Chamber of Bari and by the Region of Puglia, throughout its assessors for: Mediterranean Sea, Productive activities, Tourism, Fiera del Levante and of the Euro Info Centre IT 391.

Meanwhile, the Chamber will proceed with the ordinary presentations in favour of the partners, that will be concretized by providing the following services:

- A periodic signalisation of overseas offers and demands, even by means of press releases, e-mails and advertisements on the chamber bulletin.
- Signalisation of working companies in complementary sectors operating in Italy and Overseas.
- Country cards
- Country presentations with qualified spokesmen
- Information on fair organisations in Italy and Overseas
- Information on Chamber activities by means of the bulletin, newsletters or web-site
- Information on commercial, consistent and customs norms
- Training activities as previously explained
- Conventions and facilitations in favour of the partners

In this program there can be various changes, but without doubt the Chamber will take into considerations all the opportunities shown during the year to promote the commercial penetration of the Italian products in the foreign market.
