

The list of investment projects of the Republic of Belarus

Ministries and organizations	Investment project	Project cost	Financial instrument
Ministry of Architecture and Construction	<p>“Production of fine polished sheet glass at the “Gomelsteklo” <i>(Sheet glass manufacture working with continuous band molding (3210 mm in width) in cleanliness on the surface of melted tin with its following annealing and cutting into certain size sheets. Production of small rate glass (1,5...3mm) and big ones (8...19mm) as well as tinted glass is in the project. Neither of the mentioned above kinds of product are produced in the Republic).</i></p>	\$64 million	Borrowed funds
Ministry of Industry	<p>“Creation of new manufacture of rolling and profiled disk-shaped wheels at the republican unitary enterprise “Bobrujsk factory of tractor parts and units” (“MTP” (Minsk tractor plant) <i>(Establishment of the production of various rims and disks not less than 1040000 per year for bundling of conveyors of Minsk motor works and Minsk tractor plants as well as other enterprises of motor farming machines building area in the Republic)</i></p>	\$103,3 million	Direct investment, borrowed funds
	<p>“Installation of new production line of “MTP” and modernization of currently operating units in 2009-2015” <i>(Introduction of production capacities on PA “Minsk Tractor Plant” for 100 000 tractor and motor turnout per year; next-generation tractors and machines output increase; domestic market supply with high-tech import replacing products and their promotion abroad)</i></p>	\$824,8 million	Borrowed funds

<p>“Organization of assembling production of crawler tractors “Belarus-2013” and its modifications at the “Mozyr motor works” (“MTP” enterprise) <i>(Introduction of production capacities for crawler tractors “Belarus- 2013” output and its modifications, that will imply investments for acquisition of effective equipment, and introduction of new and progressive technologies. The project implies: production of original parts and units for tractor “Belarus-2013”, assembling and testing of crawler tractors; painting of parts, units and ready-assembled tractors).</i></p>	\$57,4 million	Direct investment, borrowed funds
<p>“Creation of the bus production factory at the “MTP” <i>(It will give a possibility to increase power in production of passenger equipment engineering; to set up a production chain of the mass bus model; to improve the quality and bring down production costs; to increase export potential; to create a research base of bus construction for working out perspective bus models)</i></p>	\$193,5 million	Direct investment, borrowed funds
<p>“Re-engineering of the production system of the republican unitary enterprise “MTP” <i>(New line production of Euro-3 and Euro-4 class machines as well as modernization of current industrial process to increase production capacities up to 50 000 machines output per year at the republican unitary enterprise “MTP”)</i></p>	\$1500 million	Direct investment, borrowed funds
<p>“New automobile crane production with 1200 units per year at the republican unitary enterprise “MTP” <i>(Production enlargement of auto cranes with increased carrying and lift capacity, car lifts; production of auto cranes of 32-40 tons weight)</i></p>	\$69,1 million	Direct investment, borrowed funds

	<p>“Constructing complex of foliated hot rolled sheet production at the republican unitary enterprise “Belorussian metallurgical works” <i>(Investment of effective and high-tech projects, unique LPK equipment; allocation of production process and LPK practically at the same place where BTP is located; import replacing; expansion of produced goods – introduction of foliated hot rolled sheet output)</i></p>	\$1600 million	Borrowed funds
	<p>“Building of IMS production factory with planned norms of 0,18 micrometers at the “Integral” enterprise (“Submicron K+”) <i>(Factory with production line of 4500 plates with IMS crystals per month according to designed norms comprising 0,18 micrometers in the currently working production department)</i></p>	\$250 million	Direct investment, borrowed funds
Ministry of Energy	<p>“Building of new solid-propellant Zelevensk KES at the republican unitary enterprise “Grodnoenergo” in the city settlement Zelva <i>(It provides the building of carbon steam electric power plant with capability of 660 MW and installation of two units with capability of 330 MW both. This unit comprises steam turbine (model K-330-23,5) and coal-fired boiler for overcritical steam condition)</i></p>	\$990 million	Direct investment
	<p>“Bereza district hydro power station. Installation of power generating unit with PGU-450 capacity at new platform ” <i>(Installation of steam and gas power generating unit with capacity of 450 MW composed of two gas turbines with capacity of 150 MW, two heat-recovery boilers and steam turbine with capacity of 150 MW)</i></p>	\$490 million	Borrowed funds
	<p>“Installation of the Beshenkovichi, Verhnedvinsk, Vitebsk, Polozk hydro electric power stations on the river Zapadnaja Dvina” <i>(Provision is made for installation of hydrosystem of flood-plain style, building of hydro power station with closed turbine hall, of ferroconcrete overflow with plain divided gates for dumping of flood water, of single-stage shipping lock for river navigation)</i></p>	\$623 million	Direct investment, borrowed funds leasing

	<p>“Installation of the Mogilev, Orsha, Rechizy, Shklov hydro electric power station on the river Dnepr” <i>(Provision is made for installation of hydrosystem of flood-plain style, building of hydro power station with closed turbine hall, of ferroconcrete overflow with plain divided gates for dumping of flood water)</i></p>	\$102 million	Direct investment, borrowed funds
Ministry of Transport	<p>“Creating a merchant fleet of the Republic of Belarus” <i>(Acquisition of one dry cargo ship with carrying capacity of 50 000 tons for sea cargo carriage. The project is aimed at creation of national sea merchant fleet in compliance with the Programme of domestic water and sea transport development till 2010, as well as at efficiency improvement and competitiveness of Belorussian products at the expense of transport component optimization)</i></p>	\$35 million	Direct investment, borrowed funds, leasing
	<p>“Renewal of the aircraft fleet of the National airline “Belavia” <i>(Acquisition of two aircrafts CRJ-100/200 with simultaneous withdrawal of aircrafts TU-134 and AN-24)</i></p>	\$20 million	-
Ministry of Communications	<p>“Constructing and launching of the communications satellite ” <i>(Creation of communication satellite national system in the Republic of Belarus on the basis of our own communication satellite in the Earth space and providing Belorussian and foreign consumers with communication satellite service)</i></p>	\$220 million	Direct investment
“Belneftehim” Concern	<p>“Installation of the unit for terephthalic acid preparation with a capacity of 220 000 tons per year at the “Mogiliovhimvolokno” JSC <i>(Establishment of finance background for transference of already operating as well as new installations use for getting polyester production to altrernative raw materials usage)</i></p>	\$213,4 million	Direct investment, borrowed funds, leasing
	<p>“Investment of “Grodno Azot” JSC using shares sale or bond issue – Building of the complex for nitrogen fertilizer production” <i>(The main aim of building new facility for ammonia and carbamide production is satisfaction of the need for mineral nitrogen fertilizer in the framework of national economy and food security insurance)</i></p>	\$1000 million	Direct investment, portfolio investment, borrowed funds

“Bellesbumprom” Concern	“Construction of industrial and economic complex “Belorussian wallpapers” <i>(Modern and high-tech wallpaper production with the capability of 46 million of nominal units per year, enlargement of output and sales volume, increase of competitiveness on the domestic and foreign markets)</i>	\$44,661 million	Direct investment, borrowed funds
	“Production of sulfate bleached cellulose, craft paper, cardboard and shop paper with capacity of 280 000 tons per year at “Svetlogorsk cellulose-cardboard enterprise” JSC	Approximately euro 1 billion	Direct investment, portfolio investment
“Vitebsk” Free Economic Zone	“Production of dry pectin and pectin-containing goods” (“Pekto” company) <i>(Pectin production applying new, patented, ecologically clean technologies on the territory of free economic zone “Vitebsk” is in the project)</i>	\$37,448 million	Borrowed funds

<p>“Gomel-Raton” Free Economic Zone</p>	<p>“Production of ferrosilicate-manganese ” <i>(New production of import replacing goods – ferrosilicate-manganese of Mn C17 model which is used for deoxidation and alloying of steel, cast iron, as well as for production of refined manganese alloys in metallurgy and other areas. By-product is crushed stone formed at the result of technological process)</i></p>	<p>\$11,65 million</p>	<p>Direct investment</p>
<p>“Izobud- promstroy”</p>	<p>“Program of fabricated metals production” <i>(New high tech production of fabricated metals for quick built constructions with capability of 36 000 tons per year (leader of regional market), directed to Belorussian and Russian region)</i></p>	<p>Is being calculated</p>	<p>Direct investment</p>

Ministry of Agriculture and Food	<p>“Creation of the specialized cattle-breeding company on the territory of Belorussian Polesje” <i>(Investments for acquisition of pedigree cattle of gereford and aberdin-angussk sort as well as for equipment are required)</i></p>	Euro 4 million	Borrowed funds
	<p>“Building of Co-generation plant at the unitary enterprise “Borisov” grain products complex” <i>(Reconstruction of energy saving system at the enterprise applying cogeneration plant with the purpose of perspective heat load covering, decrease of electricity power charges and of energy production price as well as competitive capacity rise)</i></p>	Euro 2,9 million	Direct investment, borrowed funds
	<p>“Construction of pig-breeding complex assigned for 24 000 heads under “Bereza mixed fodder factory” JSC <i>(Building of modern pig-breeding complex equipped with treatment facilities of new generation. Equipment for feed distributing, for dung removal etc. is required. The project provides pork production rise that results in mixed fodder production rise. The terms of building – 2009-2010)</i></p>	Euro 15,8 million	Direct investment, borrowed funds
	<p>Processing oil crops and production of oilcakes and oil at the “Sluzk grain products complex” JSC <i>(Processing of rape oilseed to get raw rape oil and oilcake. Production line is to comprise: oilseed receiving from motor transport, drying, keeping, pressing, oilcake transportation into shipping tankage, separation, filtration and oil transportation into tank for keeping and following shipping)</i></p>	Euro 6,5 million	Direct investment, borrowed funds
	<p>“Production of mixed fodder at the private unitary enterprise “Hodosovsk mixed fodder factory” <i>(Reconstruction of the existing factory shop, mixed fodder production rise, products sold profitability rise, enlargement of products assortment and products sold receipts rise)</i></p>	Euro 6,55 million	Direct investment, borrowed funds

	<p>“Construction of metallic granary with holding capacity of 20 000 tons at the “Bereza mixed fodder factory ” JSC <i>(The project is aimed at providing with domestic manufacture raw stock, at increasing of stock volume capacity for grain keeping. Equipment for qualitative grain keeping is required.</i></p>	Euro 2,4 million	Direct investment, borrowed funds
	<p>“Construction of trade-logistic complex equipped with potato-vegetable terminal with volume capacity of 18 000 tons <i>(Trade-logistic centre is aimed at receiving of potato, fruit and vegetables of Belorussian production, their short-term keeping, at presales preparing (sorting, packing, cleaning), at packing into consumer containers (2-3-5 kg), at short –term keeping of finished product and its centralized delivery at distribution network of Minsk city, of regional centers and big industrial cities)</i></p>	Euro 15 million	Direct investment, borrowed funds
	<p>“Production of bacterial concentrates for dairy industry” <i>(Creation of modern science intensive production of new generation bacterial concentrates for dairy industry enterprises. An import produced equipment for biological and technological production is required)</i></p>	\$16,6 million	Direct investment, borrowed funds
	<p>“Complex for refining and modification of seeds at the “Plant seeds” JSC <i>(New production line on the basis of currently operating enterprise)</i></p>	Euro 3 million	Direct investment, borrowed funds
	<p>“Construction of the racecourse under the Republican centre of equestrian sport and horse breeding in Ratomka settlement of Minsk district” <i>(Creation of conditions for horse racing, running, competitions with harness, exhibition horse performance, dog racing, motor track racing, motocross)</i></p>	\$165 million	Direct investment
	<p>“Production of fuel biological ethanol at the “Zhabinka sugar mill” JSC <i>(New production fuel biological ethanol from sugar beet with the capability of 60 000 tons per year)</i></p>	\$81,6 million	Direct investment

Ministry of Sport	<p>“Construction of the yeast factory on the basis of “Sluzk sugar refinery” JSC <i>(Construction of modern yeast factory with the capability of 20 000 tons of baker’s yeast per year in the Republic of Belarus with the further increase of 40 000 tons) for satisfaction of domestic needs and export delivery)</i></p>	\$45 million	Direct investment
“Belgospishcheprom” Concern	<p>“Construction of logistics center “Belstroipishcheprom” in Minsk district” <i>(Construction of modern transport-logistics center with cellarage floor area of 15 000 square meters which permits to fulfill following technological operations: product discharging and receiving; important keeping at cellarage; additional processing of the product (packing, marking, sorting etc.); accounting and control of product processing; sales and shipping of product; delivery of product to the customer and so on)</i></p>	\$33,2 million	Direct investment, borrowed funds
	<p>“Integrated reconstruction of production facilities of “Krasnyj mozyrianin” JSC, allocated in Narovlya” <i>(Adoption of new processing lines on confectionery production)</i></p>	\$10 million	Direct investment

“Bellegprom” Concern	“Production of chromic and jufft leather goods for working shoes used at the “Grodno leather production association” <i>(Construction of the enterprise is going to be carried out by means of reconstruction of raw hide primary procession factory with the installation of modern technological equipment. This applies as well to the removal of leather enterprise from Zernov Str., 3 to the territory of raw hide primary procession factory: Grodno city, Pobedy alley, 10 which is situated at the industrial area)</i>	\$12 million	Direct investment
	“Extension of “Minsk experimental and furniture factory” JSC <i>(Purchasing of the new technological equipment on the basis of the currently operating enterprise)</i>	\$11 million	Direct investment
Minsk Region Executive Committee	“Construction of the Belorussian Disneyland in a picturesque woodland” <i>(Construction of mass entertaining complexes)</i>	\$800 million	Direct investment
	“Construction of a 3-star hotel for 100 persons” <i>(Construction of the facility implies the construction of the restaurant for 150 persons, health center, residence; tennis court and volleyball pitch including swimming pool and office building at the horse sport complex “Urozhajnyi”)</i>	\$14 million	Direct investment
	“Building of a hypermarket in the Minsk region”	\$20 million	Direct investment

Brest Executive Committee	Region	“Production of insulating boards and mats made from basalt fiber at the “Antopol’ quilt spinning mill” JSC <i>(Provision of building organizations of the Republic with basalt fiber insulating boards and mats)</i>	\$5,1 million	Direct investment
		“Construction of a factory for ceramic brick production with the capability of 30 million nominal units per year” <i>(Satisfaction of needs of the region in terms of ceramic brick using local raw materials)</i>	\$24 million	Direct investment
		“Shock freezing production of fruit, vegetables and wild plants”	\$2,1 million	Direct investment
Gomel Executive Committee	Region	“Road metal production in Lelchizy district” <i>(New road metal producing enterprise of granite crushed stone with 3,5 million square meters annual output on the basis of the crushed stone factory “Glushkovichi” – branch office of “Gomelobldorstroy”)</i>	\$100 million	Direct investment, shared collaboration
		“Mineral and drinking water bottling at the “Rogachev beverages factory” <i>(Bottling of mineral and drinking water and acquisition of equipment for PET-producing with 0,33-2 liter, 3-19 liter, 1000 liter and bigger capacity, acquisition of equipment for bottling of mineral and drinking water, construction of artesian wells for the production of drinking and mineral water, construction of industrial and subsidiary enterprises, acquisition of vehicle for cargo transportation of finished product)</i>	\$18,75 million	Shared collaboration, portfolio investment

	<p>“Construction of an entertaining complex in Gomel” <i>(The Construction of a health and entertaining centre with a whole range of water shoots and recreation areas: slides, swimming pools, river, saunas, cafes)</i></p>	\$25 million	Borrowed funds
Vitebsk Region Executive Committee	<p>“Construction of youth entertainment center, hotel complex “Dan” <i>(Organizing of spare time of the youth, construction of youth centre with complete area of 6500 m2 in the historical part of Vitebsk)</i></p>	\$4,6 million	Direct investment
	<p>“Construction of business and exhibition complex – Centre of modern art” <i>(Construction of the facility at the square of 1000th anniversary of Vitebsk, creation of museum complex)</i></p>	\$12 million	Direct investment
	<p>“Modernization of Mark Shagall museum in Vitebsk”</p>	\$2,5 million	Direct investment
“Brest” Free Economic Zone	<p>“Production of medicines for treatment and prophylaxis” <i>(Creation of medicine production, job creation, export increase, with the help of foreign investor)</i></p>	\$40-80 million	Direct investment
	<p>“Production of medical equipment and instruments” <i>(Production of medical equipment and instruments, job creation, export increase, with the help of foreign investor)</i></p>	\$ 30-60 million	Direct investment
“Vitebsk” Free Economic Zone	<p>“Production of lime and magnesia cement from dolomite”</p>	\$30 million	Direct investment, borrowed funds
	<p>“Production of new generation building materials from dolomite magnesia cement”</p>	\$10 million	Direct investment

“Gomel-Raton” Free Economic Zone	“Production of large-sized zinc-coated metalware” <i>(New production of large-sized units (12 meters) with anti-corrosion surface on the territory of free economic zone “Gomel-Raton”</i>	\$80,6 million	Direct investment, borrowed funds
	“Creation of transport and logistics centre” <i>(Transport and logistics centre will be constructed in 3 stages: I stage – 2008-2010, II stage – 2011-2013, III stage – till 2015 (it is planned to create all necessary infrastructure for “A” class logistics centre)</i>	\$314 million	Direct investment, borrowed funds
“Grodnoinvest” Free Economic Zone	“Expansion of cell concrete production at “Grodno KSM” <i>(Expansion of currently operating production line of gas-silica blocks and construction of the second hi-tech line for “cell concrete production” based on german technological line “Verhan”.)</i>	\$23 million	Direct investment
	“Modernization of acid brick production at the “Grodno KSM” <i>(Modernization of currently operating production of acid brick by replacing of old equipment with new hi tech line of “Lasko” company)</i>	Euro 12 million	Shared collaboration
	“Creation of international transport and logistics centre” <i>(Creation of freight and container terminals with access roads and railroads, truck centre; data-computing centre and service facilities)</i>	\$50 million	Direct investment, borrowed funds
“Minsk” Free Economic Zone	“Construction of industrial park in FEZ “Minsk” <i>(Preparation of ground area and allocation of production, office and storage facilities to be used by resident companies of FEZ “Minsk”)</i>	\$20 million	Shared collaboration
	“Construction of business centre in FEZ “Minsk” <i>(Functionally it will include administration building, banks and corresponding infrastructure, universal office buildings)</i>	\$10 million	Shared collaboration

	<p>“Construction of sports and entertainment complex “Elnitsa” <i>(Construction of modern recreation complex in south-eastern part of Minsk (district “Elnitsa”), which will include covered and open carting and motorcycle tracks; ecotourism, park and recreation zone, amusement park, sports, ecological, historical and educational centers)</i></p>	<p>\$50 million</p>	<p>Shared collaboration</p>
	<p>“Creation of transport and logistics complex “Prilesje” <i>(Full range of the world class logistics services for transport and expeditionary companies as well as for organizations of any ownership with the aim to increase cargo traffic and improve service quality by using of modern logistics methods for goods flow and new technologies)</i></p>	<p>\$150 million</p>	<p>Borrowed funds</p>
